

PROFESSIONAL SKIN PROTECTION
FOR HARSH CONDITIONS

Ivy X Pre-Contact Skin Barrier

Ivy X Pre-Contact Skin Barrier is an invisible barrier to help protect against poisonous plant oils (Urushiol) commonly found in Poison Ivy, Poison Oak and Poison Sumac. Ivy X Pre-Contact Skin Barrier dries quickly, not greasy, sticky or clay like found in other products. There is no waiting, apply Ivy X Pre-Contact Skin Barrier and immediately start your outdoor task. Other products suggest you wait 15 to 20 minutes before entering the work area. Ivy X Pre-Contact Skin Barrier is water and sweat resistant, is almost unnoticeable on the skin and washes off with soap and water. Our packaging (towelettes, bottles and sprays) allows for a compliant and affordable skin care program to help in poisonous plant protection.

- Covers uneven surfaces of the face, arms and legs.
- Provides a more uniform coverage.
- Sanitary application.
- Allows product to cover more skin surface effectively.
- Easier to apply.

How to use Ivy X Pre-Contact Skin Barrier:

- Apply liberally to all exposed areas.
- Re-apply after washing or heavy activity.

IvyX Pre-Contact Skin Barrier is available in various sizes, please visit www.coretexproducts.com for more information.
